2022 COLUMBIA VALLEY MERLOT

The 2022 Matthews Columbia Valley Merlot is comprised of several small vineyards, namely Conner Lee vineyard, as well as key sites in the Red Mountain and Royal Slope AVAs. This wine truly represents the broad flavor and aromatic expressions of a merlot from the diverse terroirs of Washington State. The new winemaking team worked with our vineyard managers to update our viticultural practices, reducing yields (on average) by 30% for each site. These restricted yields created small, concentrated berries. Further vineyard dedication meant we were able to harvest between 3-6 weeks later than previous vintages. This allowed each site to fully develop the proper ripeness and flavor profile we were looking for.

The fruit was hand-harvested in the early mornings between September and October. Upon arriving at the winery, the fruit was hand-sorted and destemmed before going into stainless steel tanks, spending 30+ days on skins for extended maceration.

The wine was cellared for 21 months in new French oak (28%) and used French oak (72%). 60 barrels were selected and carefully blended, producing only 1,468 cases.

5 separate clones were included in the final blend (Merlot: 2, 3, 6, 15, Cabernet Sauvignon: 8).

"...The majority of it comes from the Horse Heaven Hills' four different sites; the long growing season really helped the fruit mature. The Columbia Valley wines all see 30 days on skins, which really gives the wine an elegance. Deep tones of blueberries and chocolate, with flourishes of mountain pine. The palate is dense with fruit, and balanced with savoury greatness. Fleshy cherries, dark plum skin, and exotic smoky spices."

94 POINTS, CLIVE PURSEHOUSE, DECANTER

SELECT VINEYARDS

1	Columbia Valley AVA	Conner Lee
2	Horse Heaven Hills AVA	Eagle and Plow, Cavalie, Wallula Gap
